

SYMPOSIUM NOTES

All future dates/events are deemed "the sovereignty of YHWH."

1. This Symposium is a compilation of known historical events that have occurred and known prophetic events that have not occurred. The events as well as their order are compiled from the works of various End Time scholars and Hebraic teachers. Hence the use of the term Symposium!

2. The events that are forecasted in this symposium is based on pashat (plain) and remez (hidden) understanding. It avoids spiritualizing prophecies of the Scripture so as not to sensualise and dramatize events but to view these events from a natural as opposed to a supernatural perspective that is based upon past historical occurrences.

3. The dates that are still yet "future" are based on the principle of recurrent and parallel fulfilment. They are forecasted from scriptural prophetic occurrences. All unfulfilled events and dates are subject to change should an event remain delayed or unconfirmed. All dates are deemed the "sovereignty of YHWH" meaning He alone decides when, how and where it is fulfilled.

4. The 80 year period of Yaakov's troubles or birth pangs is a parallel of the time period between the one week period of Daniels prophecy and the year in which Jerusalem was destroyed in 70 AD. A period of 80 years.

5. The present Jerusalem is not the Biblical Yerushalem of ancient times therefore, it is foreseen that the Biblical Yerushalem rebuilt before the great tribulation. The real Yerushalem has been found and is located in Iran. The site is Persepolis situated in the plains of Marvdasht, encircled by the southern Zagros Mountains of the Iranian plateau. The Set Apart Mountain (Mount Sinai) is north of this site. See NMZ ISSUE 15.

6. Therefore the proposed temple that will rebuilt in Jerusalem will not be the 3rd Temple but instead this will be the temple where the anti-messiah will reign and declare himself as God and will be destroyed. The 3rd Temple will be rebuilt after the Tribulation in restored Yerushalem and will be where the Messiah will reign forever.

7. The Tabernacle of David will be restored in Yerushalem by Eliyahu and Moshe. Eliyahu and Moshe were translated directly into heaven with their bodies. They will return to die in Jerusalem as the Scripture declares. They will be raised together with the Remnant that will die during this period. Eliyahu and Moshe will be men from our time who will be born of a woman. They are two of four prophesized characters who will gather Yisra'el and restore the Priesthood of Aaron and Melchizedek for the restored Temple in the Promised Land. Saudi Arabia and the Royal Family will play a crucial role in the restoration of the Kingdom of YHWH.

8. The day and hour of Yeshua's revelation should not take the Remnant by surprise in these last days. When Yeshua told his disciples that they will not know the day or hour of His return that was because He knew that His time was yet far in the future and it would only serve to discourage them. YHWH clearly told Daniel and other prophets the exact dates of his first coming, therefore there is no reason why we cannot know the day and hour of His return. It must also be noted here that that day could be elongated depending on the fulfilment of other events. We accept the Jewish understanding that Messiah will be reborn and is King David who first appeared as Messiah son of Joseph.

9. The whole focus and purpose of this time line however, is not to predict Yeshua's rebirth but to prepare us for the tribulation that is coming. Unless we are at YHWH's appointed place when the tribulation comes, we will not be saved from the wrath to come, for it will not discriminate between the righteous and unrighteous when you deliberately choose to reside outside of YHWH's designated place of safety and security. We will know the place when the time comes. The present Israel will not be a place of safety for the Remnant.

10. Beware of those who teach that Yeshua is returning any time soon because the Remnant has not yet been sealed and the anti-Messiah has not been revealed, and his temple has not been constructed. There are also many more events that must be fulfilled before the great and terrible day of YHWH. We must remain in our places and continue our works until the fishermen and hunters come for us who will be led and commissioned by Eliyahu and Moshe. When they come for you sell everything and do not look back.

11. Economic Babylon and its systems will fail. There will be a temporary period of difficult time but this will not be the end but the hour for the One World Order to take its place as the ruler of this world. We must make some temporary preparations for these times. It is advisable to begin to set aside provisions of food, water and fuel and if possible move outside of cities where you can have land to grow your own food. The food, water, energy, health and welfare support systems of nations will collapse under the strain of induced shortages that are not there but will recover under the New World Order and again prosper during the seven years of plenty and then completely collapse in the tribulation soon after.

12. Spiritual Babylon and its institutions are about to release the elect. The time of the gentiles have come to an end. Meaning the punishment and exile of Ephraim is over and the mixing of the nations with Abraham's seed is complete. The House of Judah will continue to be blinded until the revelation of Eliyahu and Moshe and many will then turn but not all. The day of mega ministries and churches is at an end. Only those that align with the Torah and Yisra'el will survive and prosper.

13. The House of Ephraim have entered into the time of divine favor and the time of restoration. Paramount to this is the command to come out of Babylon and enter into the truth that Yeshua is both the Living and Written Torah. To be saved from the wrath to come, we must believe in the name of YHWH, the higher name of Yeshua and turn from our transgressions of Torah and keep His Covenant. Upon that Condition YHWH will seal us and preserve us from His wrath to come that will come upon the whole Earth.

14. During the reign of the One World Order, Satan will unleash his own version of Elijah and Moses to deceive if possible the elect. He will also attempt to dominate and oppress the elect through the One World Order, until the time of the mandate arrives to kill the elect because they refuse to worship his image. By that time the majority of the elect will be at their appointed place of safety and security.

15. There is no rapture of the saints. Just like Noah was spared and preserved by YHWH on Earth so will the remnant be. Similarly Lot and his family was removed from Sodom and put into a place of safety. They were all here on the earth when they entered into their respective tribulation periods. Yeshua will return before the Tribulation period to set up His Everlasting Kingdom here on earth because of the promises He made to the Patriarchs that He will reign with them on Earth. The remnant will survive the tribulation in the safety and protection of the Messiah. There will be gentiles who will survive the Tribulation who will rebuilt the gentile nations of the Earth that will be ruled by the elect. They will not have everlasting life.

16. All those who reject the name of YHWH and the Torah will not be resurrected at the return of the Messiah but will await the final resurrection at the end of the 1000 year period of the Messiah's reign. There they will be judged according to the intents of their heart and their works by those who were found worthy to be in the first resurrection. Those Angels that had rebelled against the Kingdom of YHWH will also be likewise judged at this judgment. At the completion of that judgment YHWH will marry Heaven and Earth together and the righteous will rule with YHWH forever.

17. YHWH being the Landlord and man the tenant must give men a period of notice. In His mercy he has allowed 60 days which corresponds to 60 years. This period started in 2009 and will end in 2081. Thereafter the Earth will enter into the great tribulation which if it is not shortened for the sake of the elect no flesh will survive. The agent of destruction will be fire (sun) and brimstone (meteorites).

18. Be careful of those who tell you that the world will be destroyed by nuclear arms or by global warming. It is not possible to have an all-out nuclear war due to the fact that a nuclear devise can only be detonated when it is at a certain proximity with the earth and the sun at a certain time of the year. The melting of the polar ice caps is a natural phenomenon and will not raise the water level. The Scriptures does not teach that the Earth will be annihilated by natural disasters or nuclear destruction caused by men. The events of the Tribulation are beyond the doing of man or nature.

19. There will be many natural disasters and they will continue to grow in intensity as we draw near the tribulation. These disasters will cause temporarily shortages and increase prices but things will recover. Yeshua cautioned us not to be alarmed by these disasters because it must be but we are to prepare ourselves in case it happens in our region. Some of these natural disasters are man induced.

20. There are four winds corresponding to four Malak (Angels) currently shaking the Earth. This shaking started in 2001 and will shift in its intensity to a different region of the Earth every 9 years. The events that it will unleash will affect everyone globally because countries are connected by trade and commerce. International Trade Agreements, Settlements and Treaties now make it impossible for any country to be isolated from the World economy and politics.

21. There will be many isolated wars occurring in different regions of the Earth up to the time of Tribulation as Yeshua predicted. These are profit induced ventures as war becomes an enterprise. The war of Gog and Magog will be a limited war and will not engulf the Earth. There are three parts to this war that will be fought at different time zones. The reason why it is the same war is because the characters, the players and the plot are the same.

22. The Adjustment Factor. There is 19 years missing from our modern calendars. During the time of Noah the Earth's axis was once vertical, that the orbit of Sun was originally circular and not elliptical and that a year was originally 360 days. All of these parameters were changed by the Comet impact introducing massive forces into the crust of the Earth. It then knocked the Earth off its axis to a tune of about 30 degrees, it returned back to about 23.5 degrees resulting in the current annual cycle of 365.25 days. The surface of the Earth we see today was shaped by this 40 days event.
