

**THE ANSWER.** All the prophecies concerning the End Times in the Kitvei haKodesh (the Hebrew Scriptures) culminate with the establishment of the Malchut haYHWH in the Olam. This is the heart of the Scripture, and until we understand this elementary truth, we cannot comprehend the purpose of world history, let alone understand current world events. Everything is moving in the direction of the advent of the Kingdom. Make no mistake about this. At present, the world is governed by TEN SUPERPOWERS that are autonomous of any nation; these are: 1. The Mutual Funds Corporations (Vanguard, Fidelity, Blackrock) and Foundations (NGO) 2. The Vatican and the World Council of Religions. 3. The World Economic Forum (WEF) and The Council on Foreign Relations (CFR) 4. The World Bank and Central Banks. 5. The International Monetary Fund (IMF) and The Bank for International Settlements (BIS) 6. The United Nations (UN) and their Subsidiaries (WHO, UNICEF, UNESCO) 7. The Bilderberg Group and The Trilateral Commission 8. The North Atlantic Treaty Organization (NATO) 9. The Organization of the Petroleum Exporting Countries (OPEC) 10. Brazil, Russia, India, China (BRIC) and The BRIC Bank. These are the ten toes of the Navi Daniyel's prophecy (Daniyel (Daniel) 2:34-35; 44), and the first on the list is the hallux (the big toe). They are "ten kings" that answer to no human authority and are completely protected by international legislation and our governments. Above them sit the Ruling Councils and their administration bodies. They possess an unmatched armada of weapons and technologies. For many decades, they have accumulated and consolidated power, and governments cannot control them. They rule the affairs of men in all nations. These power and authority structures control our Governments and Officials, Education and Training Systems; Financial and Credit Systems; Economic and Trade Systems; Industrial and Manufacturing Systems; Political and Media Systems; The Military and Police System; The Oil and Gas Industry; The Health and Pharmaceutical Industry; The Food and Fishing Industry; Intellectual property and copyright; The World Religions and Organizations, etc. We sit at a critical and pivotal time in human history. These powers have decimated our planet's food supply through genetic engineering, polluted our environment with commercial and industrial waste, and have eroded our family and cultural values to the point of anarchy. Our world's financial and economic system is on the brink of collapse, national and private debt is uncontrollable, and the world sits at the edge of a third global world war that could eliminate 80 percent of all life on this planet. No country will be immune from the havoc that these powers have unleashed. A world financial and economic collapse will affect every country's energy, food, health, transport, communications, and law and order status. Credit, as we depend on it, will be wiped out, and money and precious metals will be worthless. Anarchy will spread like wildfire throughout the globe. When the judgment occurs, the death toll will be cataclysmic (Gilyahna (Revelation) 14:19-20). There will be no place or haven to escape what is coming. The ground, the ocean, and the air will not shelter men from the global fallout. Mother Earth will vomit out evildoers seeking shelter in her bosom as the Scripture declares (Yeshayahu Isaiah 2:19; Luka (Luke) 23:30; Gilyahna (Revelations) 6:16). The prophets have warned us repeatedly of the consequences of breaking the Eternal Laws of the Torah. YHWH must judge the nations, or He will have to apologize to Sodom and Gomorrah. The Scripture, however, tells us that YHWH is an Elohim of mercy and forgiveness (Micha (Mikah) 7:18; Mattityahu (Matthew) 9:13). The good news is we can delay this pending world judgment! It is never too late; we have not come past the point of no return, even as we approach the last hour. We can turn this situation into the greatest moment of human history, as the City of Ninveh (Nineveh) example demonstrates in the book of Yonah. We sit at the precipice of human history's most significant opportunity, advancement, and acceleration. We can end the conflicts, the violence, the suffering, the greed, the starvation, the poverty, the abominations, etc. Most importantly, we can reverse the destruction, pollution, extinction, and climate change. We can

prolong our lifespan beyond 200 years and improve our standard of living and quality of life beyond what money can't buy? Unbelievable and amazing things are awaiting us. The answer to averting the World Armageddon is not new. It is the same answer proclaimed by the Prophets and Disciples since the beginning of Civilization - It is TESHUVAH and THE MALCHUT haYHWH! YHWH wants to pardon us and restore the Kingdom to us. Yeshua made this promise clear to us, "*Fear not, little flock; for it is your Abba's (father) tov (good) pleasure to give you the malchut (Kingdom)*" Luka (Luke) 12:32. Notice the heart of our Father in these words, 'it is your Abba's good pleasure to give us the Malchut.' YHWH dearly desires for us to have the Kingdom and have it now! The plan of the Kingdom has always been available to us and with us for the last 4000 years. YHWH gave Moshe the master plan of the Malchut, which is YISRA'EL AND THE TORAH. Instead, we have created our silly and childish kingdoms – our religions and empires that prolong the darkness. Further, we must remove from our minds any idea that the Kingdom will come with political coercion, public demonstrations, or even violence, assassinations, and revolution, as some have tried in history and failed. None of our religions and methods will bring about the Kingdom of YHWH but rather delay it. We must choose the Kingdom as Yehoshua (Joshua) presented Yisra'el; He admonished them to 'choose life instead of death' (Devarim (Deuteronomy) 30:19), which is the Malchut. The choice of the Kingdom will require that we swallow our fears and brave our hearts to do ten radical surgeries that are long overdue: 1. **Eliminate** all money and credit. 2. **Dissolve** our religious creeds and religious institutions. 3. **Repeal** our laws and legal institutions. 4. **Dissolve** private ownership of land. 5. **Dissolve** our political structures and processes. 6. **Reform** our education and training system. 7. **Eliminate** our dependence on fossil fuels. 8. **Eliminate** our war machines and armaments. 9. **Eliminate** pollution, causing products and packaging. 10. **Eliminate** nuclear power and waste. Read on, and I will show you how we can accomplish the above easily. All of the above can be achieved through the power of knowledge, understanding, and agreement. The enemy of the Kingdom is not haSatan or the powers at be but our sheer IGNORANCE of YHWH's plan and purpose. As the Scripture correctly observed, "*My people are destroyed for lack of da'at (Knowledge): because you have rejected da'at (Knowledge)....*" Hoshea (Hosea) 4:6. Once mankind understands the Malchut haYHWH and what the Kingdom offers, people will realize that this is the only way forward from the deep darkness that engulfs mankind. The sholiach Yochanan warns us of misplaced hope in this world; "*And the olam hazeh (this world) is passing away, and the lust of it; but he who does the will of YHWH lives le-olam-va-ed*" Yochanan (John) 2:17. And His will is His Kingdom (Mattityahu (Matthew) 6:9). YHWH cannot build His Kingdom on the foundation of what is "passing away," in other words, what is corrupt, decaying, and cancerous. The institutions of sin and deception and the factories of death and pollution will be removed, and in their place, institutions of knowledge and truth and factories of life and goodness will bring forth abundance on the Earth. We will no longer need governments, laws, and religions because the knowledge of YHWH will cover the Earth. "*For the earth shall be filled with the da'at of the tifereth of YHWH, as the mayim covers the sea*" Chabakook (Habakkuk) 2:14. When mankind triumphs over its fear and overcomes its ignorance, nations will see that it is not a difficult thing to build the Malchut haYHWH. No government or private interest or enterprise needs to be threatened by its establishment because all peoples and all nations will have an overflowing abundance. In the Kingdom of YHWH, there will be no competition for resources, know-how, and technological knowledge, freely flowing everywhere for development and advancement. Further, we need not fear population growth and expansion because there will be plenty of food, land, capital, and energy for everyone. At the advent of the Kingdom, we need not destroy the structures, infrastructure, technology, and machinery. We must rebuild the institutions of the Kingdom based on what already exists and works. Here are just a few examples of what we can

build on the existing platforms. **When we eliminate money:** In its place, we introduce a new financial system based on credit, not debt. We eliminate all cash and bonds and establish an "exchange" system based on electronic credits. Every person is allocated credits for their needs and their projects. There will be a limit on what can be personally accumulated and requirements on what must be re-invested. There will be no lack of capital and incentive to invest credits. Usury and speculation on money will not exist in the Kingdom. **When we eliminate all private ownership of land:** We will continue to retain private ownership of our structures and commodities. A man can own a house, business, building, goods, but not the land. This will be returned to YHWH's government. Every person and business will be required to pay a tithe to use YHWH's land and resources. There will be abundant credit to run our health system, education system, reserves, parks, etc. There will be no taxes, rates, duties, tariffs, etc. A man keeps what he earns. The tithe is enough to run and operate for everything in the Kingdom. **When we eliminate fossil fuels and nuclear energy:** We unleash the potential of free energy that we can obtain from the Sun, Wind, Water, Earth, dark matter, and other free energy sources. This technology already exists and can be mass-produced, but instead, it is globally suppressed because of fossil fuel monopolies. Energy can be free for all, as Nikola Tesla envisioned for the world. We should not have to pay for power, water, and other life-giving essentials that YHWH freely gives us. There will be no utility bills in the Kingdom. **When we eliminate our political and legal structures:** We base our leadership on training and decision-making on technology, not on the election ballot and lawmakers. We create machines and programs (AI) to make the ruling and decision process easy and just for all. AI will train leaders to work at their positions rather than lord over people. We won't need politicians and lawyers. The law and police will become irrelevant because there is no more greed and lust. **When we eliminate our work and labor structures:** We release the full potential of human creativity when we no longer base the price of goods and services on the cost of labor. Production is increasingly mechanized and replaced by machines and AI in almost every profession. In the Kingdom, labor will no longer be a factor of production. Labor will be dedicated to the sciences, technologies, research, and development to improve humanity. Everything that can be mechanized will be automated with AI to free labor. There is much more! We set forth these possibilities and their implementation in our publication called *Malchut Ha Shamayim*. Believe me, everything I have described is the status of countless civilizations in the Universe that have overcome the force of evil and darkness that exist everywhere. We are not an isolated case. They overcame, and so can we! **In summary**, what can we look forward to in the time of YHWH's Kingdom? In the age of the haMalchut YHWH, there will be no poverty or lack of poverty. No slaves, no child labor, no exploitation. No hunger, no thirst, or want of necessities. No homeless, no landless, no elites. No lack of energy, no lack of clean water, no lack of sun. No air pollution, no environmental pollution. No crime, no drugs or harmful substances. No premature deaths, no abortions, no fatal accidents. No jobless and uneducated people and no want of opportunities. No money, no banks, no corporations. No fear, no war, no crime. No pornography, no abuse, no prostitution. No despots, no rich, no classes. No political structures, no legal structures, no military. No slaughterhouses, no fisheries, no zoos. No servants, no laborers, no idle people. No religion, no ideologies, no constitutions. No gentile, no Jew, no borders, no walls. Only citizens of the Malchut haYHWH. **My message to the Ruler of this World.** I know who you are because we put you there. THE KINGDOM IS COMING, and I am here to announce it; let us sit down and reason together for your place in the order of things to come before the balance of Yom YHWH is irreversibly tilted in the direction of global destruction. What has been set in motion will not restore harmony and balance because, through the deaths of millions of innocent people, blood will stain your administration. The law of the Universe states **that what is sown in death will harvest death**. Hear what the Spirit says.
