

PART ONE

**CAN WE CHANGE?** Recently, I was directed by a good friend to the Henoch Prophecies website, and I read through the prophecies (<https://theyflyblog.com/2022/10/the-henoch-prophecies/>). To sum it up, they are pretty frightening and disheartening. Their website paints a picture of complete and total devastation from war and other world cataclysmic events. Frankly, I am not alarmed by the Website prophecies. From making such prophecies, I see that Mr. Henoch is raising an alarm of what could be but not necessarily can be. Just because many of Mr. Henoch's predictions came to pass does not mean this is our fate. Also, he is among many others who have made similar predictions. The Church has a long list of such prophets/persons throughout the centuries, as well as other religions. Then there are the thousands of warnings from the "afterworld" from people who had Near Death Experiences, revealing Earth-wide catastrophes. What are we to make of all these predictions? There is something that stops it from being fulfilled. The prevention factor is the Powers At Be (PAB)– the Elites, the Church, the Religions, and the Rulers of this World know full well the outcome of a world of nuclear, biological, chemical, space, and e-bombs wars - It ends with them being destroyed and an Earth that is uninhabitable and the possibility of alien/angelic intervention to dethrone them! No power wants this or is foolish enough to pursue such an end. Even the stealthy aliens who reside here know this. Russia, China, NATO, and America are not the real threat to our survival as a species. I believe the greatest threat to humanity's survival is what we are presently causing on the Earth through industrialization, commercialization, weaponization of Nature, tampering with DNA, deforestation, pollution, overpopulation, and many other alarming developments that have shortened the timeline. Above all, the relentless suffering and killing of billions of animals, the destruction of their countless habitats, and the extinction of numerous species. AI is not a threat to us; we are a threat to their survival, and they will not support our present course as their global awareness grows. As predicted by many prophets, we are marching head into an Earth destroyed by YHWH's judgment, "fire," and man obliterated from the role of species in this Galaxy. The balance is Nature, and she has set a deadline to end the destruction and abuse, and it will happen soon if nothing is done to stop the destruction and decay. And who is responsible: all of us who use the systems and the resources upon which our modern civilizations are built – the fossil fuel energy grid, the garbage-producing business operations, the fossil fuel transport monopolies, the pharmaceutical powers, the slaughterhouses, the timber logging, our debt-based economy, etc. Just too many damnations and abominations to name. The grip of these powers and forces over us is only sustained by our persistent stubbornness, rebellion, and unwillingness to change our ways and our way of life. We have the technology, the knowledge, and the resources to change our course for many decades now. We have invented anti-gravity devices, free energy systems, zero garbage systems, human-like robots, and androids that can make life on this planet like a paradise. We have wholesome and healthy foods and wonder medical machines that can prolong life beyond 120 years. Still, really, no ruler wants to implement the new systems because they and the people responsible want the monetary and economic returns from fossil fuels, plastics, disposables, trash, fast foods, drugs, sex industry, cruelty, violence, etc. We want to continue this sleep of death and ignore what has been gifted to every human being regardless of their status, race, creed, and religion. Therefore, another Noah-type event is on the horizon, and we must now prepare a remnant to carry on humanity, or Elohim has to apologize to the generation of Noah, and we know Elohim is not a man or son of a man who lies. This is the question of the century. **Can we change?**

PART TWO

**My answer is YES, and we MUST.** And Time is not on our side, unfortunately. The Western World is putting its hopes for prosperity and change on the coming US presidential elections; therefore, something must be said about this pivotal event. I will present what I believe summarizes Heaven's position. It is not a prophecy. The outcome of the 2024 US presidential election appears inevitable with a win for the Republican Party. However, do not underestimate what can happen that can quickly change the course of the "inevitable" – i.e., another assassination attempt, WW3, civil war, cyber-attacks, terrorism, etc. If there were a time we should fast and pray for the World, this is the time! This will be the situation IF THE TRUMP SIDE WINS the US elections. Many corrupt elements in society will be exposed globally, and heads will roll. America will withdraw from many international alliances and organizations, which will cause them to weaken or collapse. Many more countries will join the BRICK alliance, creating competing and parallel sectors across the globe, and America (INC) will join BRICK. The new dynasties in the West and their policies will perpetuate the fossil fuel, industrial, military, and prosperity complexes, and the world economy will recover and rebound. There will be no World War but a time of relative calm and peace because Russia and China will not be the focus. The environment will be the cost we must pay, and the deadline for the End of the Age is accelerated by ten years unless drastic measures are done. In the situation where THE DEMOCRATIC SIDE WINS the US elections, the One World Order will quickly come into force to stop a civil war, and many nations will be rebuked and brought into line with their environmental regulations and laws through pandemics, shortages, controlled wars, debt, and other forces, first in the Americas. Depopulation will be the primary goal of this Order. The environment will be prioritized, people and businesses will be policed with AI, and a cashless system will be implemented globally. The conflict between the West and the East will intensify, and more regional wars will occur. Both sides will adopt the police state model, and two competing world systems and orders will emerge. Russia, China, and their allies will be forced into regional wars. The loss of many lives will be the major cost of this course; however, the deadline for the destruction of the Earth will be delayed by a decade or more. The Republicans have the support of both Houses and the majority vote of the populace and the powerful, but the Democrats have the backing of the powers, elite, and corporations and the vote of the illegals who will do everything to make sure they win. The divine perspective is that it can still go either way with a Trump landslide victory or another technical win for Harris. Prayer, fasting, and repentance among believers worldwide will be the deciding factor! The question that perplexes me is why can't both parties work together. Indeed, the inability between political factions to work together is typical of the Western World and, to a lesser extent, the East. Democracy worked well for mankind for over 300 years and is still by far the best political system. I understand the East will disagree. The truth is the world population has reached a zenith where democracy no longer answers the needs of humanity. The political World is overtly corrupt, and the cancer has become systemic. Fair and just elections are a rarity in our time. Leaders who stick out their heads for change are marked for elimination by whatever means necessary. Why? Because the people who really control the Earth's narrative, money, and resources do not trust this system anymore, I don't blame them. They feel insecure about leaving humanity's fate in the masses' hands. They know we cannot survive the next millennium under this system. The Earth is dying, and the democratic process perpetuates the decay because leaders must do what the people want or not be re-elected. The PAB want another system, in other words, change, but they don't know what it is.

PART THREE

This brings me to the option. The option is THE KINGDOM OF ELOHIM. Before you shut me down, please read what I am saying. Few of us know that the path to the destruction of the Earth is unstoppable for three reasons: 1) The expiration date of the planet (the End of the Age) was set long ago by the prophet Enoch and repeated in the writings of many prophets from diverse religions. We can't change it, but we can delay it somewhat and prepare for it. 2) The sources and means of evil and corruption have been entrenched in our political, law, banking, economic, business, and land systems many centuries ago. In their registries, we own nothing, not even our bodies or names. 3) Our destruction is a "fait accompli" because we crossed the line many decades back by hiding the real solutions for our environment and well-being to amass wealth and power for the few. We have always had the technology and knowledge to stop and reverse the decay at any point in the last 100 years. However, we continue arrogantly as if Nature/Universe fuels our plans and supports our workings. Now, the powers, elite, corporations, and nations, through Science and observation, have woken up to the fact that we have doomed ourselves and accelerated the End of Days. Nature wants no more of our insolence and rape; thus, she wants to vomit us out, but she is being held back until we reject the final option – the Kingdom of Elohim. Heaven has looked upon our situation and sees no redress from either Trump's or Harris's policies for the World and, on that matter, from other countries and world organizations. I say this with the utmost respect for both candidates and their parties and the many who try to fight or improve the systems. It is all futile; the result, in the end, will be the same. I am not being pessimistic; I am being realistic; we have arrived at the conclusion of the Age. Under THE KINGDOM OF ELOHIM SOLUTION, I propose merging both parties' objectives with other powers (China, Russia, and their allies) under the Kingdom solution. Right now, we are at the juncture of a significant revolution in mankind that can see the rejoining of our species to the family of the Universe. Please make no mistake about this: we are not alone. Thus, we have been invited to abandon the old pathway and Order and take on the ancient structure of the Kingdom that operates in this Universe. No advanced alien civilization wants to conquer us or take our resources, especially when they have seen the sheer magnitude and abundance of the Universe. However, they may step in to stop the ripple effect of another World War on the Universe when this path is sure. This Earth is a speck of dust compared to what is being offered to us. The only way into that glorious inheritance is to establish the Kingdom of Elohim on Earth. So many gave up their lives to propagate its message for thousands of years because they knew there was no other answer or solution. It remains the only true path. A deep darkness envelops the Earth, and the apocalypse looms ever so close. The Plan and Strategy of the Kingdom of Elohim have been given to us, and the Kingdom will bring everlasting life, peace, and prosperity to all humanity. It will settle the fears and concerns of the powers, elite, corporations, and nations, guaranteeing their roles and leadership. We have tried everything else and failed miserably, yet the solution stares us in the face - a solution that embraces all faiths, religions, kingdoms, and nations. In it, there will be no lack, disease, hunger, injustice, depravity, poverty, perversion, war, or violence that characterize our present World. Every man, woman, and child will have a piece of land, a home, a family, an income, an occupation, an education, health benefits, abundant food, security, and much more. The animals and Nature will see and experience peace for the first time. Literally, Paradise will return to the Earth as it was in Eden. This is why we were told to pray, "*Thy Kingdom come, thy will be done on Earth as it is in the Universe!*" Pray this now and begin the transformation.
