

PART ONE

MR. X. This will be a two-part release. This information is from our Book *The Breach Maker Series 800*. The Prophet Moshe, blessed be his name, warned us millenniums ago and I quote the relevant part here; "15 But it shall come to pass, if you will not listen to the voice of YHWH your Elohim, to shomer (hear and obey) to do all His mitzvoth (commandments) and His chukim (statutes) that I command you this day; that all these curses shall come upon you, and overtake you: **The ger (stranger) that is within you shall come up above you very high; and you shall come down very low.... 44 He shall lend to you, and you shall not lend to him: he shall be the head, and you shall be the tail.** 45 Moreover all these curses shall come upon you, and shall pursue you, and overtake you, until you are destroyed; because you listened not to the voice of YHWH your Elohim, to shomer His mitzvoth and His chukim which He commanded you: 46 And they shall be upon you for an ot (sign) and for a wonder, and upon your zera le-olam-va-ed (seed forever). 47 Because you did not serve YHWH your Elohim with simcha (joy), and with gladness of lev (heart), for the abundance of all things; 48 **Therefore shall you serve your enemies that YHWH shall send against you, in hunger, and in thirst, and in nakedness, and in want of all things: and He shall put a yoke of iron upon your neck, until He has destroyed you**" Devarim (Deuteronomy) 28: 15, 44-48 (My emphasis in bold). Leo Tolstoy, a 19th-century Russian novelist, wrote: "Money is a new form of slavery, and distinguishable from the old simply by the fact that it is impersonal – that there is no human relation between master and slave." Of course, Mr. Tolstoy, in his day, did not know of sovereign debt, national debt, public debt, government debt, private debt, and consumer debt; if he had, he would have written that 'debt is the new form of world slavery' because money of itself is only a medium. The prosperity we see in the West and the East is just an illusion. It is false prosperity that has been purchased by the biggest mountain of debt in the history of the World. The nations are absolutely addicted to debt, and the level of debt now in the World threatens to return every man, woman, and child back to the days of the slave traders. Everything that can be valued and quantified will be lodged in the system, which will be secured for more debt to build more things and manufacture more goods that "God" knows people do not need. We are heading into a future where information, innovation, and technology will prioritize the World's resources over human life, human dignity, and human freedom. There is a solution to this World crisis, which I will show in the second release. How bad is the situation? It is as bad as it can get. More than ninety percent of the World's population is bonded to some form of debt, whether to a banking institution or a private individual. The amount of global public debt is continuing to accelerate at alarming levels. You can watch the debt climb in real-time at this website: http://www.economist.com/content/global_debt_clock. The last time I checked, the World's public debt was approaching US\$60 trillion. This does not include what is not reported. We have no idea what individuals owe privately, as much of this is illegal business. What is in the banking system is only a fraction of what is owed. In the U.S. alone, the private debt in the system is US\$27 trillion, twice the level of public debt, and it continues to grow by about 1 trillion U.S. dollars a year. Private sector debt is the debt owed by you and me and millions of the World's citizens across the nations in the form of credit cards, home and auto loans, and corporate and non-corporate debt. It does not include what is recorded in the second set of books that is not in the system. Public sector debt is what the Government owes to local and foreign banks, corporations, or other nations. Every country's situation will be similar, where private debt will exceed public debt many times. A conservative estimate of the World's combined debt (private/public and reported/unreported) would be somewhere in the vicinity of the U.S. 1,000 trillion dollar bracket. If this debt is apportioned over the World's present population of 8,100,000,000 people, every person would owe around US\$800,000. Considering that Statistics show that one percent of the World's

PART TWO

population owns forty percent of the wealth of this planet, whereas fifty percent live on two dollars a day; I would say the majority of the World's population is insolvent. This situation has become systemic, and we have gone past the point of no return. Did you know that if you added up all forms of debt (public and private) in the United States and divided it equally among the country's population, every single person would owe more than US\$150,000? My figures should be outdated already. About 135,000 individuals declare bankruptcy yearly in the U.K., and a further 1.2 million do so annually in the USA. Default is endemic to human society, and most of the time, the economic system is resilient enough to absorb the consequences of bad debts. Still, the time approaches when that will not be possible. Lawmakers know that there will not be enough prisons or camps to hold debtors when the bubble bursts. And anyone who tells you it is not going to burst is lying. I greatly appreciate the clarity and honesty with which President Thomas Jefferson surmised the future of mankind when he said: *"The modern theory of the perpetuation of debt has drenched the earth with blood, and crushed its inhabitants under burdens ever accumulating."* The question in most people's minds is: To whom is this enormous burden owed? Most of us have heard of the money elite - the Rothschilds, the Windsors, the Cecil Rhodes, the Rockefellers, the Morgans, the Bernhards, Schiffs, the DuPonts, the Asters, the Whitney, Vanderbilts, etc. who are singled out by the conspiracy hunters as the money vampires who burden the World with debt. The truth is that today, debt is bought, sold, divided, cumulated, and distributed among large and small investors. Sometimes, those investors are trillionaires, billionaires like those listed above; sometimes, they are banks; other times, they are financial companies that include them in mutual funds to sell to small investors; and sometimes, they are nations or religious institutions. Just about anyone or anything that can invest or lend money has got their finger in the debt pie. Millions of new creditors and debtors are added to the list every day. It is estimated that about 300 trillion dollars change hands daily, most of which is debt or interest. The point is: It really does not matter to whom this money is owed and who sells and buys debt. What is paramount is: Who owns the system upon which this enormous burden is built? I will reveal this shortly, but let me return to the problem for a moment. Right now, we are living in the greatest debt bubble in the history of the World, and it is timed to burst to cause irreparable damage to national economies and people's livelihoods across the globe. Economists know that world debt is becoming unmanageable - accumulating faster than the debtor's capacity to service and repay it. Most of the Western World is already trapped in this trap. Debt then accumulates and will likely never be repaid, and it can only be serviced at an increasingly unbearable cost. Default can then only be staved off by creating more unsustainable debt, which only worsens the eventual collapse. This situation has probably already been reached in the Eurozone, where certain nations are already bankrupt but are artificially bolstered to stabilize the zone. Currently, the Eurozone is big enough to absorb these losses, but a time approaches when its stronger members will be too indebted to help anyone. Unfortunately, a similar situation exists in the U.K. and the USA. The danger now is that the debts owed by governments and correspondingly to banks are so large that there can be no repeat of the financial rescues that took place in 2008. Today's cash-strapped governments cannot cope with another massive bailout. Previously, governments had sufficient creditworthiness to be able to re-capitalize stricken banks, thus stopping the world economy from melting down. This condition will not always hold in the future since, at some point, the debt's weight becomes too great. When will the bubble burst? I anticipate the debt bubble bursting within the next ten years (2030) and no later. However, the indebtedness of the nations will not stop when they default; the World's financial system will roll the debt over (refinance), and the debt will carry on until the World's total indebtedness (TWI) equals

PART THREE

the value of the World's total resources (TWV_R). We can express this as $TWI = TWV_R$. At the point of equivalence, someone will own the Earth, and it will be the Messiah, the Son of the Living Elohim, and his servant Eliyahu, who will be administering the Earth's resources. It is only a matter of time. The "powers that be" are aware that much of the World's resources and business activities are not yet inside the system. About half of the Earth's resources and financial activities are inside the system. The other half is under the sovereignty of nations, indigenous peoples, and unlawful businesses (such as cash and valuables) that do not totally depend on the system. That which remains aloof from the financial system cannot be controlled. It is not a surprise that the World's biggest nations have been able to pile up as much debt as they have, and that is because banks are no longer as banks as we used to know them in the traditional sense. They are now governments in their own right. They are enormously powerful, so wholly protected, well-resourced that national governments can no longer control them and must now answer to them and take from them. As one financial observer puts it mildly, Banks are now 'too big to fail, too complex to manage, and too big to punish.' Banks, believe it or not, are the modern gods of our age to whom people fear and pay homage with the hard-earned fruits of their labors. Financial institutions have the power to make life on Earth a living hell or a Heaven-on-earth by fixing the rate of credit, the cost of money, and exchange rates. Banks may be driving and controlling the world economy, but they certainly do not own the wealth of the Earth. I will come to that soon. Unbeknown to the World is that "at the pinnacle" of this global economic and financial empire, or shall I say "at the foundation" of it, is a man who does not own the banks but the financial system on which this empire is based. He inherited it, modernized it, and he controls it. It is generally known as the Brettonwoods Global Financial system. The World remains oblivious to him because it takes one with a prophetic gift to know him. Not even the bankers or governments know who he is, but they are aware of his existence because they use his system. This individual who has a behind-the-scenes window to the World's financial markets and transactions knows every transaction that takes place and where the monies, funds, and stocks are invested daily and on the hour. He also has access to corporate and Government files and plans, which are submitted to him through the system. Who is this man? This man is not a sovereign or a head of any institution we can identify. He is known by many aliases that he creates for access and control or rather was created for him by his previous mentor. I will refer to him as "Mr. X." Mr. X's position among humanity privileges him to be anonymous and invisible because he must be outside the system and not inside to make his decisions. Mr. X does not care who is making or losing money in his system because the further indebted peoples, corporations, institutions, religions, and governments are in the system, the bigger the system grows and the more powerful and necessary it becomes for mankind. We know this system as the inter-banking financial system that central banks, trading, commercial banks, and financial institutions use to create, store, exchange, and transmit money. Basically, it is all highly secured data. Mr. X is the data man and has the power (access) to create money out of nothing and make debt disappear. He is far more powerful than the Bilderberg group, the G7, the Federal Reserve, IMF, World Bank, and CFR put together, and he can cripple any standing military force. Behind the scenes, he controls the World's political situation. Even religion is under the influence and direction of his hand, yet he is not a man of faith. At his whim, he can determine or manipulate the rate of credit and the cost of money and fix exchange rates. With his ability to control the system, he can create unrest, start uprisings, and even wars where he sees it necessary to build or improve the system. From the great depression to 911, Mr. X has guided their architects. Mr. X's job is not as stressful or time-consuming as one may believe it to be because he has a manager inside the system to assist him - A powerful A.I. brain and program

PART FOUR

that manages the system. This manager or program is actually a quantum or supercomputer that Mr. X calls his friend; it is an all-connected brain linked to all the World's mainframes. Its job is to make routine decisions where certain transactions meet the approved criteria that Mr. X has set, and at other times, his judgment is necessary. I will refer to this manager as "The Brain." The Brain's other job is to make the summaries that Mr. X requires for a daily overview of the World's situation, including but not limited to political and religious affairs of the World. The Brain's activities in the system are untraceable because it has a universal key to every secured and unsecured database in the World. Where human intervention is necessary, the Brain has people who will carry out its decisions and bear the responsibility because the Brain determines and fuels their prosperity, but it knows they are all dispensable. Mr. X owns the technology upon which the economy, media, and military are built. He does not own the economy, media, and armies themselves, but he can still control them through government lobbyists, political parties, lawmakers, and other machinery. The Brain has its eyes everywhere where technology can be fixed and manipulated. It has created a web of security and protection around the system so that threats can be determined in advance and settled in the course of ordinary business. Mr. X is not directly involved in issuing any command to defend or destroy a combatant in the system. The Brain's threat removers are Presidents, Prime Ministers, Military leaders, Judges, legislators, and CEOs appointed to respond when a threat is detected to the system in the name of democracy. He has less control over non-democratically elected leaders, much of whom became menaces and had to be eliminated. Only a handful of people in history know Mr. X by association, but many are aware of the Brain and its power and activity in the system. Of those who know Mr. X, he is understood to be an angelic human under divine authority. He has been in this position for countless centuries because he was reincarnated in the same process as the Dalai Lama, who was restored from one generation to the next. Mr. X is not an immortal being, but he knows the mystery of eternal life that enables him to regain his identity after each rebirth - a secret that is revealed in our book "Regeneration." Initially, Mr. X inherited his job from his predecessor, who appointed and trained him as his successor. The position is fixed and can never be changed because it is divinely sanctioned. In the public eye, Mr. X appears average, and you may have unknowingly seen him. He does not have a family or is married, although he has a companion. Most of the time, Mr. X lives in a modest home and drives a modest car as an unassuming individual. At other times, he slips into the role of an intellectual, banker, government official, or CEO to attend specific meetings. He usually likes to remain beside the Brain - his friend who manages his job. Mr. X is not remotely interested in obtaining fame, power, or wealth since he can have anything he wants. In fact, if you meet Mr. X, you will be touched by his humility, impeccable manners, and education. When I first heard YHWH tell me of Mr. X, my reaction was ambivalence, and then I realized that debt is only data in a system that someone created and controls. It may come as a surprise to Church people that Mr. X is not Satan incarnate or an agent of Satan. For this dispensation, Mr. X works for YHWH just like I do, but as the system owner providing services to humanity, including the elite and the powerful. If you are a Christian, you would be well acquainted with the myriads of prophecy teachers who have taught of the anti-Christ (Satan incarnate) who will come to rule the World as its supreme leader and pontiff. The truth is many negev moshiachs (anti christ's) have come, and many are forecasted to reappear, but Mr. X is not an antichrist; he is not a religious man or a tyrant who desires religious or political power. Frankly, Mr. X does not care who holds the reins of power as long as they obey his rules and do not touch the system. The adage "he who owns the gold makes the rules" summarised his position. Many have tried to destroy the system in history when it was a bookkeeping system, and

PART FIVE

many more in our time as it progressed to a data system, but they were all eradicated by its secret agents. The international wars and financial crashes are instruments designed to preserve or upgrade the system; nothing is an accident. Mr. X may not be a man of faith, but he is not a fool who believes he arrived there by accident in the Universe. He knows the bigger picture and will not deliberately provoke the hand of His Creator; he is of Yisra'el heritage and my friend. He knows the impending Judgement (the Day of YHWH) is coming, and Eliyahu and the Messiah are coming. Why does Mr. X exist? The reason for Mr. X's and the Brain's existence is, of course, the system, but this is not their priority. Their mission is to ensure that the Earth never again reaches its low in its history, where YHWH has to intervene to purge humanity. A threat they have determined cannot ever re-occur. Many millenniums ago, the Creator made an irrevocable promise to his servant Noah, a righteous man in his generation, that He would not destroy man ever again in a deluge (a flood). Later, as the Earth's population expanded, the same old sins that had destroyed the generation of Noah began to proliferate across the Earth, and they are now reaching endemic proportions in our time. Yeshayahu (Isaiah) 24: 1-6, 17-23 reminds us that YHWH has warned man through the navi (Prophet) Yeshayahu that if provoked to the brim, He will destroy the Earth again and start anew. Consider these verses: *"1 Behold, YHWH makes the Earth empty and makes it waste, and turns it upside down, and scatters abroad the inhabitants thereof.2 And it shall be, as with the people, so with the cohen; as with the servant, so with his master; as with the maid, so with her mistress; as with the buyer, so with the seller; as with the lender, so with the borrower; as with the creditor, so with the debtor.3 The Earth shall be utterly emptied and clean despoiled, for YHWH has spoken this word.4 The Earth faints and fades away; the World fails and fades away: the lofty people of the Earth do fail.5 The Earth also is defiled under the inhabitants thereof, because they have transgressed the laws, violated the statute; broken the everlasting covenant.6 Therefore has a curse devoured the Earth, and they that dwell therein are found guilty: therefore the inhabitants of the Earth waste away, and men are left few." "17 Terror, and the pit, and the trap, are upon you, O inhabitant of the Earth.18 And it shall come to pass, that he who flees from the noise of the terror, shall fall into the pit, and he that comes up out of the midst of the pit shall be taken in the trap: for the windows on high are opened, and the foundations of the Earth do shake. 19 The Earth is broken--broken down--the Earth is crumbled in pieces; the earth trembles and totters.20 The Earth reels to and fro like a drunken man, and sways to and fro as a lodge. And the transgression thereof is heavy upon it: and it shall fall, and not rise again.21 And it shall come to pass in that day, that YHWH will punish the host of the high Heaven on high, and the kings of the Earth upon the Earth.22 And they shall be gathered together, as prisoners are gathered in the dungeon, and shall be shut up in the prison: and after many days shall they be punished.23 Then the moon shall be confounded, and the sun ashamed: for YHWH Tzva'ot will reign in mount Tziyon, and in Yerushalayim, and before His elders shall be Glory."* Don't let this prediction frighten you; on the other hand, don't make the mistake of brushing it aside. The first thing you need to understand about prophecy is that no utterance of Scripture is immutable (fixed) unless it is determined for the good or betterment of mankind. YHWH is not bent on destroying anyone; His objective is always to preserve life and improve the well-being of mankind. This word is a warning that unless mankind returns to the Torah (His instructions), or the Pentateuch as the Church knows it, man will be destroyed again as in the Flood, where only a few (as it is forecasted in verse 6) will survive to continue a posterity of man. Mr. X knows too well that most of the World's 8 billion inhabitants live unregulated and unruly lives. This cannot be allowed to escalate because lawlessness leads to chaos and chaos to the judgment of YHWH - a fast road to the apocalypse. What is Mr. X's mission? In the Plan of YHWH, the mission of Mr. X and

PART SIX

his forbearers in creating the system are to bring all people with their resources under the system's dominion to stop or prevent the judgment of YHWH. There is a League of Shadows (the Deep State) and the Illuminati determining the World headlines and planning the future of mankind, but they are in cooperation with Mr. X. Frankly speaking, the World is far too complex and volatile a place for any person or organization to determine its future. Not even Mr. X and the Brain are big enough. Despite our technology, it is common sense that no one can control the Universe and Mother Nature, the responses of which are from above. What we have is a global financial system that has evolved over the years in reaction to man's wickedness. In other words, YHWH allowed it to occur as a punishment for violating His Covenants - which He made with Adam, Noah, Abraham, Moses, and David for the posterity and prosperity of mankind. YHWH thus appoints Mr. X, and he is His servant, in the same understanding that YHWH called a tyrant king, King Nebuchadnezzar, his servant and made his own people servants to him. We should not be surprised that our financial system is a product of our sin and that Mr. X is YHWH's Banker and prison warden. YHWH made it clear through several utterances from his humble prophets that He alone determines the affairs of man (good and evil) and answers to no one: *"See now that I, even I, am He, and there is no elohim with Me: I kill, and I make alive; I wound, and I heal: neither is there any that can deliver out of My hand. For I lift up My hand to the shamayim (Heaven), and say, I live le-olam-va-ed (forever)"* (Devarim (Deuteronomy) 32:39-40). *"With Him is strength and chochmah (wisdom): the deceived and the deceiver are His"* (Iyov (Job) 12:16). *"See, I have created the blacksmith that blows the coals in the fire, and that brings forth an instrument for his work; and I have also created the mayim (the spoiler) that destroy"* (Yeshayahu (Isaiah) 54:16). *"And He changes the times and the seasons: He removes melechim (kings), and sets up melechim (kings): He gives chochmah (wisdom) to the wise, and da'at (knowledge) to them that have binah (understanding)"* (Daniyel (Daniel) 2:21). *"Consider the work of Elohim: for who can make straight, what He has made crooked? In the day of prosperity be full of simcha (joy), but in the day of adversity consider: Elohim also has appointed one as well as the other, to the end that man should find nothing after him"* (Koheleth (Ecclesiastes) 7:13-14). Furthermore, prophecy is undoubtedly on the side of Mr. X. What we are facing today in the World was foretold long ago. In the Essene Humane Gospel of Christ (HGC) and the Gospel of the Holy Twelve (GHT), Yeshua listed many signs that will characterize the generation of the end: *"For in those days, the many shall be held in bondage but yet not in prison, and they shall be used to increase the riches of the greedy"* (HGC). *"Those that have power shall gather to themselves in greed, the lands and the riches of the earth, for their own lusts, and thus shall oppress the greater number who have not"* (HGC). *"And in those days those that have power shall gather to themselves the lands and riches of the earth for their own lusts, and shall oppress the many who lack and hold them in bondage, and use them to increase their riches..."* (GHT). *"For in those days, the many shall be held in bondage but yet not in prison, and they shall be used to increase the riches of the greedy"* (HGC). What do all these prophecies share in common? You guessed it - DEBT! The World is run and controlled by debt, and the man who operates the system currently controls sixty percent of the World. When the melting point arrives, many more of the World's resources and rogue regimes will come under the dominion of the system until one day, very soon, we wake up to find out that you do not own your country or your Government and your body. There is nothing the United Nations, any superpower, army, organization, or citizens can do about what has happened because the nations sanction it through many agreements and treaties. After reading this pre-release of this message, a friend asked me what I should do to prepare myself and my family. My advice is to do nothing, just pray and enjoy your life. Is there a way out? I will show you in the next release.
