

THE EARTH WILL BE DESTROYED BY FIRE. This is both an announcement and a reminder of our time's most essential and relevant prophecy. According to numerous prophets and holy men, the Earth will be destroyed by fire. A judgment long ago written by the prophets Enoch and Isaiah. The thing is, no one has taken them seriously. The movie "Knowing," starring Nicholas Cage for the first time, brought the reality of an Earth destroyed by fire to the major screen. Still, we think it will not happen. After all, how could the Creator of this Universe destroy His own creation, the Earth? It is elementary. In the same way, we also destroy everything we create because it is either out of control, bad, obsolete, or useless. The point is nothing ever lasts on this Earth. Everything has an expiry date, including man. We have arrived at the end and are now on the countdown to the event called Yom YHWH (the Day of YHWH). Two thousand years ago, a group of men curious about the end of the age asked Shiloh what the sign of the end would be. He began by revealing many signs to watch out for, most all of which have been periodically fulfilled, i.e., earthquakes, pestilences, wars, rumors of war, prisons without walls, and twenty-four signs altogether. Sorry, I don't have the space here to explain the signs. Please be informed that they are not all in your Bibles because the Catholic Church hid them from you. The 24th and final sign that will characterize the end time is the sign of Jonah (Yonah), which has a parallel fulfillment in Yom YHWH. Most people are familiar with the story of Jonah, how this great prophet of Elohim was sent to the wayward nation of Ninevah to proclaim repentance to its people. Instead, the prophet boarded a ship that went in the opposite direction. A great storm arose and threatened to sink the ship. When the ship's crew realized the prophet's disobedience, causing their boat to sink, they cast Jonah into the great ocean, where a great fish immediately swallowed him up. Shiloh told his friends that this story would be the Pinnacle Sign of the End. I must quote the verse, "*Know ye Jonah, and ye shall know my sign, for Jonah be in the stomach of the great fish; so I shall be in the greater fish, and again I say unto ye, as the fish was in the great sea, so shall I be in the greater sea, for in that age to come I shall be in the fish even as Jonah.*" The Humane Gospel of Christ. Many who have read the Christian gospel narratives are aware of the sign of Yonah only concerning the death and resurrection of Yeshua; few, however, know that it is "the final sign" of the end days. The generation that witnesses this sign will see the return of the Messiah and witness the preparations for Yom YHWH, which is why we must understand what this sign means because Shiloh did not give His disciples the meaning. You can choose to disbelieve what I am about to tell you, but the truth must be told. The sign of Jonah is the SUB ARKS that must be constructed soon to spare the posterity of mankind and preserve our generation's wisdom, knowledge, and technology. The Earth will lose its magnetic field for three and a half years and recover over three and a half years, making the surface inhabitable again. The radiation will go deep into the Earth, and fire will evaporate the oceans and incinerate everything. No one hiding underground will survive, and nothing we have built will remain; only those chosen and prepared for the Sub Arks will live. The Sub Arks are massive submarines unlike anything ever constructed that can descend to the bottom of our deepest trenches and are shielded from the radiation. Only the water in the trenches will remain after three years of boiling; the water will return to the heavens, shielding the Earth as it was before the time of Noah. Eliyahu will prepare the Earth for the event and bring comfort to Humanity because there is no need to fear this event, as the righteous shall be regenerated through those who survive. As the word quoted above shows, the Messiah will captain the mission and rebuild civilization on Earth after the planet is healed. The Sub Arks will be underwater for seven years before they emerge. Many big corporations will look to space for salvation; the fact is space was never made for our biological existence, and it is simply impossible to cart billions of life forms into space. Finally, the atmosphere of our neighboring planets is hostile to our existence, and the nearest other inhabitable solar system is 70,000 years away. Please be realistic! YHWH does not lie; therefore, we must prepare to preserve a remnant of Humanity to begin anew.
