

**YOU HAVE A RIGHT TO KNOW NOW!** There are cities underneath the ocean floors with high-speed highways that are thousands of years old. They are an advanced civilization from before the time of Noah. Their Rulers are known among us as the Absolute Rulers, the Watchers, and Fallen Angels, among other titles. I shall name them the Sons of Elohim (SOE), as the Torah calls them. They are from the time of the great pyramids, dating back to the period of Noah. The origin of their kind is from the Garden of Eden. They are the progeny of the sons of Adam and Eve who did not fall, who remained back in the Garden, and who later left their domain and mated with the fallen daughters of men. The SOE lives under the World's oceans and poles because the depth and expanse of the water that previously enveloped the Earth considerably slow down the aging cycle, but it cannot stop it, and death comes to all. Their lifestyle and diet permit them to live for hundreds of years, but many have also passed. The eldest among them exceeds the age of Adam and Eve and is very wise. The SOE cannot directly expose themselves to sunlight, so they only come to the surface at night in their advanced space crafts. They are the custodians of secrets of darkness and light from the Garden of Eden. Some have called them the Keepers of the Light. They have many advanced technologies that defy the laws of nature and sources of perpetual or quantum energy that supply and keep their civilization. The Jesuit Order of the Catholic Church regularly communicates with them, and they attend highly secretive meetings with the global elite and royals at neutral locations. They are not to be messed with because they do not tolerate insolence or rebellion. Many civilizations were terminated when they became a threat to Humanity. The SOE carefully monitors the globe's events and scrupulously examines our knowledge and information bases, looking for signs of the end and the final judgment. Where the SOE has seen chaos/death in our history, they have intervened to change the course of Humanity and always watched over Yisra'el. They cannot leave this planet because they do not have the permission or the technology to travel to other sectors of the Universe. The SOE recognizes the order and authority of Elohim in the Universe. They know we are all in a prison due to Humanity's cosmic rebellion that shut us off from eternal life and removed our right to roam the Universe. Their destiny and fate are tied to humans, albeit they are not under our history and, therefore, remain invisible. The SOE knows the end-of-age and time approaches because they fear Enoch and know they can do nothing to stop the fulfillment of his prophecies, just like Noah's flood; only when Enoch was taken away could the Deluge begin. Eliyahu, who is Enoch, relived, dwells among us. He is the only person, who can bring light and hope to this generation, and the SOE must help him or be damned in the Day of Judgement of all Humanity. The Messiah is the icing on the cake, and he shall be crowned King of the Earth because he fulfilled his mission perfectly at the appointed time. He does not return to stop Yom YHWH because he cannot. In the beginning, the SOE had the opportunity to lead Humanity into faith, truth, and redemption after the fall. Still, they chose not to intervene because they did not believe YHWH would destroy Humanity and all life except the sons of Noah. We have fearfully entered this period again, and the SOE find themselves at Humanity's crossroads as before, but their technology and location will not save them this time. Numerous prophecies paint the grand picture of all life's complete and total destruction at the end of time. The Earth shall be destroyed by fire but not obliterated, and it will not be destroyed by a meteorite(s), although their impact could somewhat trigger or hasten the timeline. We do not have decades or a century to prepare. Eliyahu is here to prepare and lead us to safety for the time to come, and he cannot do it without the help and cooperation of the SOE, royals, elites, and nations. Eliyahu has the authority to delay the judgment for decades through the Kingdom Program, but he cannot stop it. The rebuilding of Yerushalem and the restoration of Yisra'el are an integral part of the Plan, Order, and Strategy of the Kingdom of Elohim because the faith and hope of Humanity are ultimately based on the revelation of the Messiah and his everlasting rule. Would we be worthy of receiving him this time? I pray so!
