

PART ONE

I HAVE A VISION. We need a renewed vision for humanity—one that fulfills the Dream. The way forward begins with a VISION. However, for a vision to be impactful, it must be documented. Without documentation, it remains just a dream—a fleeting story that may never be taken seriously. The issue with untold stories is their susceptibility to change and manipulation. This is why YHWH commanded the prophet Habakkuk to record the vision clearly: *"And YHWH answered me, and said, Write the vision, and make it plain upon tablets, that he may run that reads it. For the vision is yet for an appointed time, it shall speak in the end, and not lie: though it lingers, wait for it; because it will surely come, it will not delay"* (Chabakook (Habakkuk 2:2-3). Today, we too, are called to obtain a new vision— to achieve what no generation has accomplished and to venture into realms previously unexplored. My vision aligns with Elohim's vision for humanity: a world where all life is sacred, the Earth is the Garden of Eden and joy fills our homes. This is the vision YHWH has entrusted to me.
